ANNEX VI MARPOL : PREVENTION AGAINST AIR POLLUTION

PROTECTION – CONTROL – IDENTIFICATION - TRACKING

ANNEX VI MARPOL : Prevention against air Pollution

The International Convention ANNEX VI MARPOL is concerned with preventing marine pollution from ships.

Specifically, Annex VI of MARPOL addresses air pollution from ocean-going ships.

The international air pollution requirements of Annex VI establish limits on nitrogen oxides (NO_x) emissions and require the use of fuel with lower sulfur content , protecting people's health and the environment by reducing ozone-producing pollution, which can cause smog and aggravate asthma.

ANNEX VI MARPOL : Prevention against air Pollution

Annex VI applies to all government bodies and they are asked to cooperate and respect all points of the annex VI.

Efforts to ensure compliance with Annex VI and its applications include plant supervision, marine supply, and also the inspection of supplies so as they meet the necessary standards.

ANNEX VI MARPOL : Prevention against air Pollution

04

As per Annex VI marpol regulations,, all ships are bunkering or if you supply that carry out bunkering ito keep a sample of 1 litre of every bunk for at least one year.

Every sample bottle is sealed with a security seal.

The regulation states that 1 litre and ½ litre bottles should be used and sealed with a waranty seal

LeghornGroup offers a selection of product that conform with this.

HERE ARE THE MOST COMMONLY USED:

ANNEX VI MARPOL : Prevention against air Pollution

05

RECTANGULAR PLASTIC BOTTLES WITH SEALABLE LID

Art: PL 612

cc-ml 500 - H 137mm

Art: PL 613

cc-ml 1000 - H 170mm

CYLINDRICAL PLASTIC BOTTLES WITH SEALABLE LID

Art: PL 411

cc-ml 500 - H 160mm

Art: PL 412

cc-ml 1000 - H 200mm

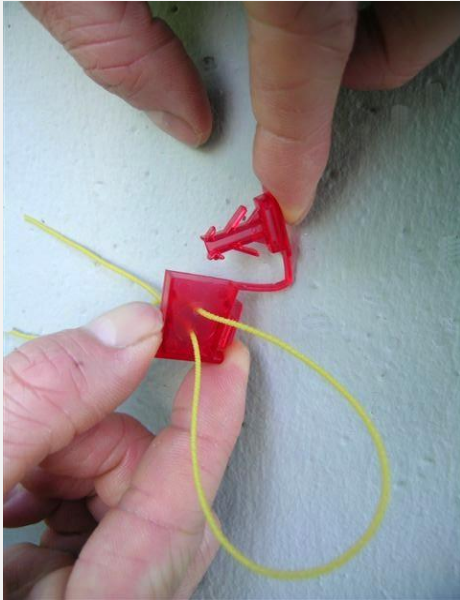

ANNEX VI MARPOL : Prevention against air Pollution

o6

SEALING WIRE SECURITY SEALS

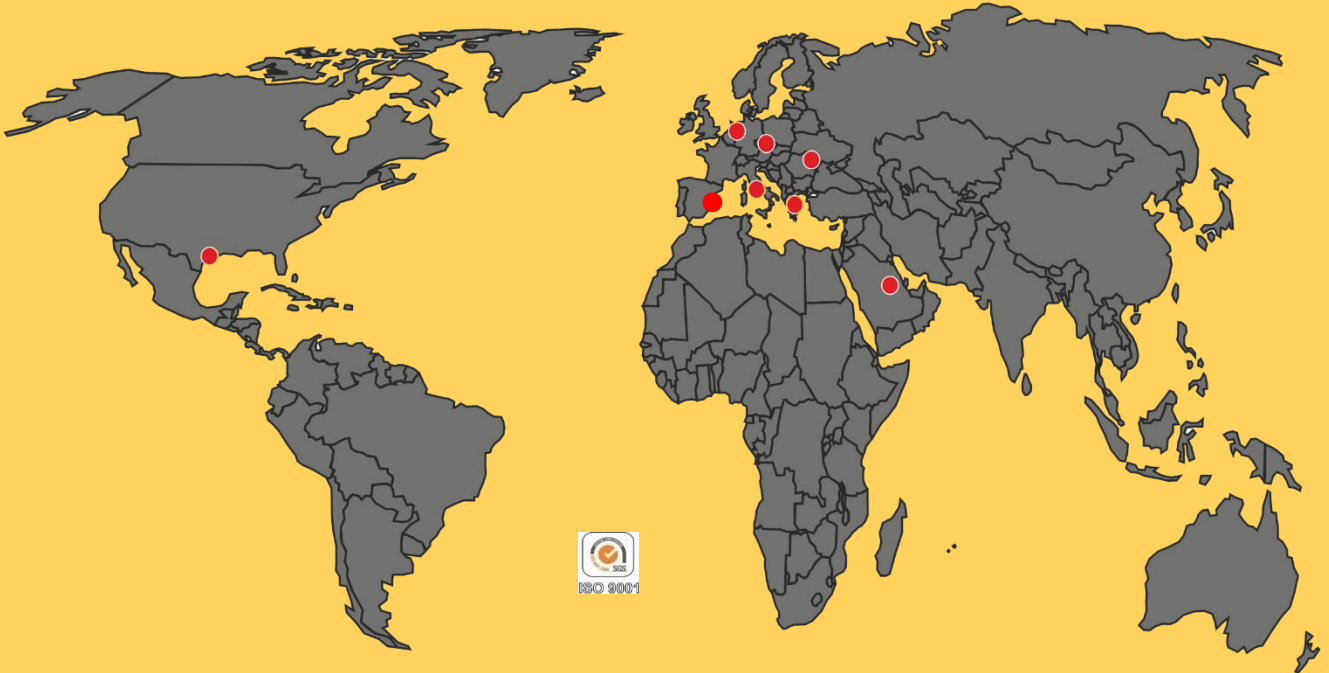

Art: TWISTSEAL :
numbered seal with plastic coated
inox wire 1 mm

Art: aANCHORCLIK :
numbered seal with plastic
coated inox wire 1 mm
