A ZEN CONCEPT IN A LOGO

The company logo recalls the powerful symbolism of two legendary animals:

- the **lion**, symbol of bravery, strength and loyalty;
- the **snake**, symbol of slyness and deceitfulness.

The image captures the animals the very right moment before a conflict. At this tense moment the energies of the animals gather at breaking point, signifying **a moment of universal balance between the energies of light and darkness** - a concept very similar to the Yin and Yang principle.

The **power to overcome evil through the positive forces of nature** is at the foundation of the challenging and fighting spirit that inspires and characterizes the company.
