INTRODUCING A NEW LEVEL OF INNOVATIVE SECURITY

Protection - Control - Identification - Tracking - RFID solutions - www.leghorngroup.com

Meaning of the name "Leghorn".

Leghorn, Livorno in Italian, is an Italian city located in Tuscany. 20 km from Pisa, 50 km from Lucca and 100 km from Florence.

It is a city on the coast of the Tyrrhenian Sea and is one of the most important Italian ports.

During the Second World War, Livorno was occupied by American soldiers who began to call it "Leghorn".

LeghornGroup – the assignment

The assignment of LeghornGroup is to be strongly oriented to the customer and to provide a specific solution that meets all the needs, which are never the same between different customers. This is why our most important collaborators are often our own customers: we experience the problem together and we solve it together. We always pay attention to every innovation and are available for constructive comparison.

Every day we get to know new issues related to the different fields of human activity aimed at countering the activities of individuals or organizations vowed to illegality.

We keep a constantly updated database with all the products that we have developed or recommended over the years to help law enforcement in their fight against crime.

Finally, we always have an on-line service for anyone who needs advice concerning our field of action.

We are shaping

ourselves

Evolution over the years

A zen concept in a logo

The company logo recalls the powerful symbolism of two legendary animals:

- the **lion**, symbol of bravery, strength and loyalty;
- the **snake**, symbol of slyness and deceitfulness.

The image captures the animals the very right moment before a conflict. At this tense moment the energies of the animals gather at breaking point, signifying **a moment of universal balance between the energies of light and darkness** - a concept very similar to the Yin and Yang principle.

The **power to overcome evil through the positive forces of nature** is at the foundation of the challenging and fighting spirit that inspires and characterizes the company.

Quality matters

This is a translation of certificate N. IT090172

The quality management system of

- Production processes of high security seals compliant with ISO 17712 ANNEX A
- Products meet the requirements of the REACH, RoHS and CE Directives

Tampering prevention: building the concept of security

LeghornGroup is a private company specialized in the production and sale of security devices for identification and traceability, allowing the monitoring and protection of goods and people.

In today's world, ensuring the integrity and safety of both transport and products is crucial in a variety of sectors such as pharmaceuticals or food packaging and financial transactions.

Tamper evident products play a key role in detecting unauthorised access and preventing fraud or contamination.

Looking forward to investing in future

Innovating

- R&D investments 2012-2020 exceeding 3 Meuro
- 14 Utility Models, 4 International Patents (EU, USA, India, PRC)
- Product compliance with technical specification of **International Standards ISO17712, ISO18000-63**
- Permanent Agreement with University of Pisa - Economics and Communications Science

Partnering

- Consolidated network of Distributors and Resellers worldwide - **Partners' Network Program**
- EU granted initiatives for CEF, Connecting Europe Facilities and TEN-T, Trans-European Transport Networks in Europe
- Technical Partner for major Italian players in transport, logistics and energy distribution

Feeling Human

Moving on a global scale with a human scale

- Social responsibility – **Code of Ethics**
- Production sustainability - **Made in Italy, Make in India**
- Environment - **Eco-friendly products**

We are now shaping the future: transport & logistics digitalisation

Products to facilitate international trades
without compromising on security

Harmonisation of transport ecosystem

Synchromodal transportation

Digitalisation of logistics processes

Why three-state RFID electronic seals patented by LeghornGroup will revolutionize the world of transport & logistics?

- Higher efficiency in operation and process automation - Resource and capital optimisation
- Meet trade single window, e-commerce, and risk management
- Higher level of security – No seal replicas

LeghornGroup field of action

PROTECTION: We can protect your goods and assets with security seals and various products for tamper protection. The company can create bespoke, technical solutions to meet client's requirements.

CONTROL: We ensure goods and people can be monitored using security products and integrated complete hardware and software solutions that allow the operator to monitor and intervene in real time, even remotely.

IDENTIFICATION: LeghornGroup's understanding of authentication along with their innovative technical products and solutions allow users to uniquely and securely identify, goods, vehicles, containers, animals and people.

TRACKING: LeghornGroup's real time GPS tracking devices allow users to monitor location, status and movements of vehicles and people.

RFID SOLUTIONS: LeghornGroup also manufactures solutions for product authenticity; automatic identification systems using RFID to aid traceability of objects, animals and people, offering new and efficient operations to speed up the supply chain.

President's statement

President and Founder
"LeghornGroup"

"The most important contribution that a company can offer to social progress is to manage its activities in the most efficient possible way. This means never losing sight of the values that are the foundation of any civil society.

LeghornGroup has always been and continues to be engaged in activities that we believe are inseparable from our daily operations in the security sector, such as **educational programs, donations and social commitment.**"
